

# Academic Leveling Courses

---

Prospective business majors – whether transfer students, returning adult learners, or new business graduate students – often have to complete prerequisite or leveling courses when entering their higher education program. Requiring prerequisite business courses can delay student admission and can be burdensome for institutions due to time demands, costs, and scheduling.

Our **Academic Leveling Courses** offer a solution for both undergraduate transfer students and new graduate students. You can customize your selection of courses to align with each student's specific leveling needs, program requirements, and desired learning outcomes. Use of the courses promotes student retention and improves graduation rates.

## Academic Leveling Courses

Available Academic Leveling Courses provide foundational content in these subject areas:

- + Accounting
- + Business Ethics
- + Business Finance
- + Business Integration and Strategic Management
- + Business Leadership
- + Macroeconomic
- + Microeconomic
- + Global Dimensions of Business
- + Information Management Systems
- + Legal Environment of Business
- + Human Resource Management
- + Operations/Production Management
- + Organizational Behavior
- + Marketing
- + Quantitative Research Techniques and Statistics

## Course Structure

Each Academic Leveling Course includes a 20-question pre-test, 4-6 hours of online instructional material, and a 20-question post-test used for educational accountability.

Our Academic Leveling Courses can be completed individually or in any combination prior to or as the first course in the program of study. The design of our Academic Leveling Courses also allow you to offer them in either an instructor led or self-paced environment.

### RESULTS AND REPORTING

School officials have 24/7 access to student results and reporting through the Client Admin Site.

The site includes student registration management, access to completion certificates, individual scores, and summary results to track student progress.

### PRE-TEST

A **20-question pre-test** allows the student to self-assess current knowledge.

The pre-test includes scores by subject area included within the course for more focused learning as the student completes the course.

### INTERACTIVE LEARNING

Each Academic Leveling Course includes 4-8 sections of instructional content with interactive review questions to ensure understanding.

An Academic Leveling Course can typically be completed in 4-6 hours.

### POST-TEST

A **20-question post-test** provides a metric of the knowledge gained from completing the course.

School officials can set the minimum acceptable score for the post-test and it can be completed twice if additional study is required after the first attempt.

## Service Pricing

Academic Leveling Courses service pricing is based on annual service projections and includes complete access to individual results, reports, and analytics.

PRICING GUIDE
