BSC CURRICULUM INTEGRATION

Purpose of this Manual

The purpose of this manual is to provide instructors, faculty, program managers, and curriculum designers with syllabus-based examples of how to integrate the B-School Connection program into the curriculum and the classroom.

BSC Program Overview

The B-School Connection (BSC) program includes a subscription to *Bloomberg Businessweek*, one of the most widely read business weekly magazines in the world, and access to the Education Resource Center, a powerful tool for higher education.

Program objectives include:

1. Provide application-based instructional content.
2. Encourage regular reading of business news.
3. Establish an expectation of better informed and more engaged students.
4. Appropriate for *any course* at *every academic level*.
5. Is a dynamic, comprehensive, and inexpensive weekly business textbook.

The BSC prepares students for success in the global economy by closing the gap between theory and application. The BSC provides a broad range of tools to enhance classroom curriculum, integrate current global news, and supplement theory with real-world application. The Education Resource Center empowers both students and faculty to get the most out of the magazine.

Student learning outcomes for the BSC program include:

1. Encouraging regular reading of business news independent of specific assignments and classroom activities.
2. Establishing an expectation that students will be better informed and more engaged.
3. Students become global thinkers, realizing the connectivity of the world and local impact.
4. Developing more career-ready graduates who are ready to contribute in the workplace with a more thorough understanding of the global business community.
5. Students can link academic theory with real-world practice and application.

The B-School Connection Resource Center (<https://resourcecenter.businessweek.com/>) includes:

- ❖ Weekly Instructor's Guides
- ❖ Reading Buckets with "greatest hits" articles and guides organized by academic disciplines/topics, economic sectors, global regions, and educational competencies
- ❖ Weekly Faculty EDGE Guides
- ❖ Additional classroom integration recommendations

For students, the program results in a competitive edge. Students broaden their business focus, and become engaged, excited, enlightened, and ready to become globally informed students of the world. The Education Resource Center allows students to find current and prior *Bloomberg Businessweek* readings for use in the classroom.

For faculty, the BSC enhances curricula by leveraging real-time, up-to-date business news, and closing the gap between theory and application. Within the Education Resource Center, course instructors have access to weekly articles and guides by disciplines/topics, sectors, regions, and competencies. Additionally, the weekly EDGE guides provide powerful, competency-based case studies based on current events.

Weekly Instructional Tools

Instructor Guides are produced weekly and distributed via e-mail to course faculty. The Guides are written by the BSC Advisory Board, terminally degreed faculty from leading business schools. The Guides provide course instructors with real-time, multi-disciplinary tools to enhance their curriculum. The Guides are archived after 18 months, allowing great flexibility in future lesson planning, while also providing current, relevant, and accurate business news to instructors and students.

EDGE guides (Executive Development Guide and Extract) is a B-School Connection Resource Center tool that turns selected weekly articles into powerful academic content for student development. The EDGE is competency-based, relates to accreditation goals for B-Schools, and provides faculty with mini-case studies that address real-world situations. The competencies are based on the outcomes that faculty, business schools, accreditation agencies, and downstream employers want to see in successful graduates of business programs.

Types of Curriculum Integration

BSC can be integrated into the curriculum using a variety of instructional methods:

1. Discussion Board Posts
2. Short Papers
3. Student Presentations

4. Student Team Projects
5. Case Studies
6. Assessment Activities (Quizzes and Course Exams)

Broadly, each integration method can employ one of two styles of student activities: *continuous* or *issue-specific*.

Continuous syllabus activities are not time-bound as the same activity can be used for several academic terms without modification. Such content can be included in the Learning Management System (LMS) and remain largely unchanged for several terms. The activities direct the students to use the current or past edition of *Bloomberg Businessweek* and the ERC to answer the question(s) or activities as required by the assignment.

Issue-specific syllabus activities are time-bound and relate to specific articles. Although the assignment can be relatively generic, the course instructor does update the assignment to direct the students towards a specific issue of Bloomberg Businessweek.

Rubrics are also presented for Discussion Board Responses, PowerPoint Presentations, Written Assignments, and Oral Presentations to help instructors assess how well students meet the criteria for each activity or assignment. Instructors may use more than one rubric for a particular activity or assignment (for example with the Team Project) to assess different aspects of the students work.

The following pages provide examples of syllabus-based activities and assignments that are either continuous or issue-specific.

DISCUSSION BOARD POSTS

A discussion board post activity that integrates the B-School Connection program can be article-specific or topically generic. A discussion board post stimulates student engagement and demonstrates application of the concepts within the global context.

There are two (2) types of Discussion Board Posts:

1. **Continuous Syllabus Activities.** These activities pose a question or questions that require the students to perform research and to then synthesize, analyze, and reflect on the question prior to writing their response.

2. **Issue-Specific Syllabus Activities.** These activities require that the student read a specific article responding to the questions posed in the review at the end of the article.

Grading and Assessment: To assist in assessing the student’s responses, many faculty use a rubric specifically designed for Discussion Board Posts.

Discussion Board Rubric

Expectations:

- Posts and replies submitted by the deadlines.
- Writing style professional and NOT in text or Instant Messaging style.
- Content and tone professional and respectful.
- Contribution to a conversation by:
 - asking good questions
 - making insightful observations
 - avoiding duplication of previous posts
 - adding to what a classmate has said

Criteria	Outstanding	Proficient	Basic	Below expectation (failing grade)
Completeness	Fully meets all assignment requirements as detailed in assignment description.	All required elements completed.	Most required elements completed.	Only satisfies some of the required elements.
Critical Thinking	Rich in content; full of thought, insight, and analysis.	Substantial information thought, insight, and analysis has taken place.	Generally competent information is thin and commonplace.	Rudimentary and superficial no analysis or insight is displayed.
Connections	Clear connections to previous or current content and to real-life situations.	Connections are made, but not really clear or too obvious.	Limited, if any, connections; vague generalities.	No connections are made; off topic.
Uniqueness	New ideas and new connections made with depth and detail.	New ideas or connections lack depth and/or detail.	Few, if any new ideas or connections; rehash or just summarized other postings.	No new ideas, "I agree with ..." statements.
Style and Grammar	Few grammatical or stylistic errors.	Several grammatical or stylistic errors.	Obvious grammatical or stylistic errors which interfere with content.	Obvious grammatical or stylistic errors which make understanding difficult.

Continuous Syllabus Activities

XX Points

What are the major issues in Microeconomics today? What do you think are some of the current challenges, opportunities, and areas of specific interest regarding the discipline of Microeconomics? Consider both your local environment, as well as the global context as you consider these questions. Take a few minutes to strategically explore and consider your local community, region, and the global environment relative to Microeconomics.

Specific to this activity:

Read articles that apply to your specific region, as well as those outside of your region to broaden your frame of reference.
- Compose a discussion board post that provides your opinion regarding management issues today. Specifically, compose a post that addresses two foundational questions: (1) What are the major issues in Microeconomics today? (2) What do you think are some of the current challenges, opportunities, and areas of specific interest regarding the discipline of Microeconomics? The discussion board post should be between 250 and 500 words.

SHORT PAPERS

A short paper student activity combines both B-School Connection article reviews and *Bloomberg Businessweek* articles with journal articles and books to link theory with practice and promote critical thinking and analysis skill development.

There are two (2) types of Short Papers:

1. **Continuous Syllabus Activities.** These activities pose a question or questions that require the students to perform research and to then synthesize, analyze, and reflect on the question prior to writing their response.
2. **Issue-Specific Syllabus Activities.** These activities require that the student read a specific article responding to the questions posed in the review at the end of the article.

Grading and Assessment: To assist in assessing the student’s responses, many faculty use a rubric specifically designed for Short Papers.

Writing Rubric

Continuous Syllabus Activities

Activity 1: Minimum Wage

XX Points

Many countries, and even regions or cities within countries have laws specifying minimum wages paid to employees. Some economists believe that the market should determine wages, while others argue minimum wages are necessary to ensure workers are treated fairly.

Specific to this activity:

- Read at least five article reviews and perhaps the full articles related to Minimum Wage found on the BSC Education Resource Center.
- Write a 1000-1300-word paper based on your readings that includes a discussion on the following concepts: minimum wages, employment, benefits, profit, economy, growth, income, inequality. Use the BSC articles as a basis for the discussions of these concepts.
- Written assignments will normally use either Times New Roman or Ariel size 12 font. Assignments should be double spaced, and should include a proper introduction and summary or conclusion.
- Cite any sources used using the format required by your institution (example APA, MLA, CMS, Harvard, etc.).

Continuous Syllabus Activities

Activity 2: Interest Rates

XX Points

In the United States as in many countries, the amount of interest you pay to borrow money is often connected to the % interest as determined by the country's central bank. A small increase can lead to increases in the amount of interest you pay on your mortgage or car loan (for example). Increases can also impact the rate of growth in the economy which in turn can impact employment and investment.

Specific to this activity:

- Read at least three article reviews and perhaps the full articles related to the Interest Rates found on the BSC Education Resource Center.
- Write a 1000-1300-word paper based on your readings that includes a discussion on the following concepts and how they are used and why they are important to organizations today: interest rates, central banks, loans, mortgages, increases, decreases, growth, economy, employment, investment. Use the BSC articles as a basis for the discussions of these concepts.
- Written assignments will normally use either Times New Roman or Ariel size 12 font. Assignments should be double spaced, and should include a proper introduction and summary or conclusion.
- Cite any sources used using the format required by your institution (example APA, MLA, CMS, Harvard, etc.).

Continuous Syllabus Activities

Activity 3: Regulations

XX Points

Regulations are typically rules related to how something is done that are enforceable by the agency (government or other organization) who has established them.

Governments often put regulations in place to help enforce laws or to guide the direction of policy. There are often both benefits and costs of regulation. Deregulation means the elimination or reduction of regulations. When we connect regulation to economics, we are typically looking at how regulations impact the economy.

Specific to this activity:

- Visit the Bloomberg Businessweek B-School Connection Education Resource Center (<http://resourcecenter.businessweek.com>) and read at least 3 current articles related to regulations and economics. Read articles that apply to your specific region, as well as those outside of your region to broaden your frame of reference.
- Compose a discussion board post that provides your opinion regarding global trade today. Specifically, compose a post that addresses the following questions: (1) What kinds of regulations do government typically put in place? (2) What examples of the impact (positive and negative) can you find related to government regulations? Consider both local and global perspectives on these issues, and the legal remedies. The discussion board post should be between 250 and 500 words.
- Written assignments will normally use either Times New Roman or Ariel size 12 font. Assignments should be double spaced, and should include a proper introduction and summary or conclusion.
- Cite any sources used using the format required by your institution (example APA, MLA, CMS, Harvard, etc.).

Issue-Specific Syllabus Activities

Activity: Housing

XX Points

Read the following article review: [URL or Name/Location of the Article]. You may also want to read the full article.

Specific to this activity:

- Write a 1000-1300-word paper that summarizes the article (about a third of the paper), answers the discussion questions included with the article review (about the third of the paper), and offer your own conclusions and reflections regarding the article and its implications in business (about the third of the paper)
- Written assignments will normally use either Times New Roman or Ariel size 12 font. Assignments should be double spaced, and should include a proper introduction and summary or conclusion.
- Cite any sources used using the format required by your institution (example APA, MLA, CMS, Harvard, etc.).

STUDENT PRESENTATIONS

Using the B-School Connection Education Resource Center, course instructors can require students to develop a presentation based on specific problem-solving questions that integrate both the textbook materials with current events to demonstrate practical application of the concepts.

There are two (2) types of Student Presentations:

1. **Continuous Syllabus Activities.** These activities pose a question or questions that require the students to perform research and to then synthesize, analyze, and reflect on the question prior to presenting their response.
2. **Issue-Specific Syllabus Activities.** These activities require that the student read a specific article responding to the questions posed in the review at the end of the article.

Grading and Assessment: To assist in assessing the student’s responses, many faculty use a rubric specifically designed for PowerPoint Presentations.

PowerPoint Presentation Rubric

Criteria	Exceeds Standards	Meets Standards	Fails to Meet Standards

Continuous Syllabus Activities

Activity 1: Competition

XX Points

In economic terms, competition relates to the rivalry between sellers who are seeking profits, market share, and revenue (or sales volume) through the frequent manipulation of the marketing mix: product, price, place, and promotion. Place refers to channels of distribution. How do governments influence (or attempt to influence) competition between companies in your country? How do companies attempt to influence the competitive environment for their products or services?

Specific to this activity:

- Read at least three article reviews and perhaps the full articles related to the Economics (key words: competition, marketing mix, economy, product, price, place, promotion, market share, revenue, profits) found on the BSC Resource Center (<http://resourcecenter.businessweek.com>).
- Prepare a presentation that reviews competition in economic terms in your country. Then, citing at least 2 specific examples, answer the following questions: (1) How do governments influence (or attempt to influence) competition between companies in your country? (2) How do companies attempt to influence the competitive environment for their products or services? (Slide Count?)
- Presentations will normally use either Times New Roman or Ariel font. Students should consider their audience using an appropriate balance between text, graphics, and images and should normally include a proper introduction and summary or conclusion.

ASSESSMENT

Weekly Quizzes

Course instructors can create weekly quizzes (multiple choice and/or short answer) based on the current week's *Bloomberg Businessweek* articles that cover a variety of topics and/or quizzes that span multiple issues for a specific topic. Each article review has 2-4 Discussion Questions that can be used for essay responses and 2-4 multiple choice/true or false questions.

Instructors can prepare a quiz based on one or more article reviews for a specific edition of *Bloomberg Businessweek* or that cover multiple editions of the magazine. The quiz can be administered in the Learning Management System (LMS) or as a paper, in-class quiz.

Course Exams

A course exam activity with either/both multiple-choice and essay questions can also be developed using the question test banks found within the B-School Connection Education Resource Center associated with the article reviews.

Faculty can use the Advanced Search fields to locate articles based on specific key words, economic sectors, academic disciplines, and/or learning outcomes (competencies). Based on this search, exam questions are extracted from the editions of *Bloomberg Businessweek* that covered the academic term to create a course-level exam that is specific to the course's learning outcomes. The exam can be administered in the Learning Management System or as a paper, in-class exam.
