Write & Cite®

An Academic Writing Readiness Course

Could your students stand to improve their writing? Peregrine Academic Services offers **Write & Cite**®, an online tool used to develop students' understanding of structure and style, research techniques, and documentation methods. With 8-12 hours of instructional content and a 50-question competency exam, Write & Cite teaches students the skills they need to craft clear, effective, well-documented assignments.

Whether your university requires APA, MLA, or Chicago Style documentation, Write & Cite provides guidance on structuring and formatting a paper and crediting others' ideas through solid research and proper citation. Upon completing the course, your students will have a clear understanding of academic writing requirements so that you can spend more time teaching content, instead of correcting form.

Structure

This fully online course consists of a 20-question pre-test, eight interactive training modules with quizzes organized into the learning sections, and a 50-question post-test with questions randomly drawn from the entire course. Upon completion of the post-test, students will receive a completion certificate to demonstrate their competency in academic writing.

Topics

In addition to the 5 modules covering types of academic writing, literature sources, structure, style, and plagiarism, the course includes 3 technical modules that cover either APA, MLA, or Chicago Style documentation requirements.

Support

Unmatched client support to assist you in incorporating the program into your course and accessing data through our client admin website. We also provide LTI integration so that the program can be offered through a course shell within your school's LMS.

Comprehensive Reporting

You receive immediate access to all student registrations and results. This intuitive and flexible reporting system generates both individual and collective pre- and post-test results to demonstrate assurance of learning.

Results and Reporting

School officials have 24/7 access to student results and reporting through Client Admin. Reports are used for academic benchmarking and learning outcomes evaluation.

The site includes student registration management, access to completion certificates and individual scores, and summative reports for comparative analysis.

Course Content

Write & Cite's 8 training modules help students achieve the following learning outcomes:

+ Prepare an academic paper in accordance with either the APA Writing Style (6th Ed.), the MLA (Modern Language Association) style, or The Chicago Manual of Style (CMS).

+ Define and use proper tone, word choice, and idea development for academic papers.

+ Demonstrate ability to clearly define a research problem.

+ Select credible sources for a presented research problem.

+ Describe plagiarism, and identify proper citation techniques for crediting others' ideas.

+ Recognize the most common writing errors and demonstrate techniques to avoid them.

+ Identify the tone, structure, purpose, and format for different types of academic writing.

+ Consider nuance and meaning to choose vocabulary appropriate for a paper's purpose.

+ Use feedback to review an assignment and correct errors in style, structure, and content.

+ Demonstrate an understanding of proper grammar, including consistent verb tense, correct subject-verb agreement, and uniformity of phrases.

Service Pricing

Service pricing for Write & Cite is based on the projected number of courses required annually.

Service pricing includes access to individual results, reports, and analytics.
