Available Reports

Programmatic Evaluation Reports

Longitudinal Analysis Report. A side-by-side comparison of different exam periods (up to 5 exam periods in one report).

Internal Analysis Report. A report of a selected group of exams with the selection of one aggregate pool at a time with both an analysis of means and an analysis of frequencies. The Executive Summary: Internal Analysis Report is an abbreviated summary report of this report.

External Comparison Report. A report of a selected group of exams comparing the results against one or more aggregate pools. The Executive Summary: External Comparison Report is an abbreviated summary report of this report.

Program/Cohort Comparison Report. A side-by-side comparison of the results between one or more academic programs or cohorts of students where there is overlap of topics on the student exams.

Supplemental Reports

Response Distractor Report. A unique report that summarizes why students answered questions incorrectly based on 5 types of response distractors.

Student Survey Report. A summary report of the results from the complimentary, optional student survey administered in conjunction with an Outbound Exam.

Grade Scale Report. A report based upon the client school's COMP exam results used to determine a school-specific grading scale based on percentile scoring.

Aggregate Extraction Report. A report with the aggregate data in Excel format used for additional data analysis.

Client Schools in Aggregates Report. A listing of the schools included in each of the aggregate pools.

Pairwise Report. A report showing the summary of individual student results over time

Educational Courses and Programs Reports

ALC Report. A student-by-student summary of the student's Academic Leveling Course results.

An executive summary of this report is available that combined results.

Write & Cite Report. A student-by-student summary of the student's Write & Cite course results.

Exploring Your Potential (EYP) Reports

Student Pre/Post Surveys, Summary. This report summarizes all student responses to the pre-course and post-course surveys included with each Exploring Your Potential (EYP) course. The purpose of this report is to measure student learning outcomes and it is most commonly used by course faculty and/or program managers.

Student Pre/Post Surveys, Individual. A by-student listing of the responses to the pre-course and post-course surveys include with each EYP course. The purpose of this report is to evaluate individual student results. This report is most commonly used by course faculty to evaluate learning outcomes.

Student Reflective Questions, Summary. A summary report of all student responses to the end-of-module reflective questions within each EYP course. This report is most commonly used by course faculty and/or program managers to evaluate results relative to the learning outcomes.

Student Reflection Questions, Individual. A by-student listing of the responses to the end-of-module reflective questions. The purpose of this report is to evaluate individual student results. This report is most commonly used by course faculty to evaluate results relative to the learning outcomes.

Student Quiz/Test Results, Summary. A summary of the end-of module quizzes, end-of-course quizzes, or end-of-program (when 2 or more EYP courses are combined) quiz results. The purpose of this report is to evaluate the results for a group of students. This report is most commonly used by course faculty and/or program managers to assess learning outcomes.

Student Quiz/Test Results, Individual. A by-student listing of the results for the end-of module quizzes, end-of-course quizzes, or end-of-program (when 2 or more EYP courses are combined) quiz results. The purpose of this report is to evaluate individual student results. This report is most commonly used by course faculty to evaluate results relative to the learning outcomes.

Student Activity Report, By Student. This report provides student content as entered in the activities within EYP sorted first by students, then sequentially by the activities within the course/module. The purpose of this report is to evaluate the specific activities, as a

group of students, completed by the students. The report is most commonly used by course faculty and/or program managers.

Student Activity Report, By Activity. This report provides student content as entered in the activities within EYP sorted first by the course/module/activity and then alphabetically by student. The purpose of this report is to evaluate the specific activities, as a group of activities, completed by the students. The report is most commonly used by course faculty and/or program managers.

Student Progress Report. An Excel report that shows the progress of the students through the EYP courses with dates for when each course module and activity was accessed, when each course module and activity was completed, and when the entire course (including pre/post surveys) was completed. The purpose of this report is to track student access and module completion as they move through the courses. The report is most commonly used by course faculty and/or program managers.
